

## Member Testimonial

Jassmin Martell Perez,  
Practice Manager, Nevada Health Centers

*"NVMGMA offers **fantastic resources** and **valuable education** for their members on the ever-changing healthcare trends. In the four years that I have utilized MGMA's resources and education, I **have been able to implement some of the best practices in my health centers, which led to 5% decrease in "no show" rates, reduce patient registration times by four minutes and increase provider and patient satisfaction.***

*The knowledge I've gained has helped me advance in my career and has allowed me to be a more efficient health care professional. I encourage all of my colleagues to become members of MGMA both on a state and national level."*
